PROFESSIONAL SUMMARY

Results-driven QA Engineer with 3+ years of experience in manual and automation testing, specializing in Agile/Scrum environments and quality-driven software delivery. Strong expertise in test automation, API testing, regression, integration, exploratory, and performance testing, with hands-on experience in CI/CD pipelines and Docker. Experienced in AI chatbot and LLM testing, including hallucination and context-retention testing, prompt engineering, and AI-assisted test case generation. Proven ability to design comprehensive test strategies, identify defects early, improve test efficiency, and collaborate effectively with cross-functional teams to deliver reliable, high-quality software.

TECHNICAL SKILLS

Testing & AI: Manual Testing, Automation Testing, AI Chatbot Testing, LLM Testing, Hallucination Testing, Context Retention Testing, Prompt Engineering, AI-Assisted Test Case Generation, Regression Testing, Integration Testing, Exploratory Testing, Performance Testing
Test Automation & API: Playwright, Cypress, Postman, API Automation
AI-Assisted Development: ChatGPT, Claude, Cursor
CI/CD & DevOps: Git, GitHub, GitHub Actions, Docker
Methodologies: Agile, Scrum, Kanban, Sprint Planning, Test-Driven Development (TDD)
Project Management: Jira, Trello, Linear, Miro

PROFESSIONAL EXPERIENCE

Project Analyst & QA Engineer **March 2023 – Present**
Metodovicon, Spain

- Gather client requirements, clarify technical needs, and translate business objectives into actionable tasks.
- Analyze requirements, document technical specifications, and assign tasks to development teams.
- Coordinate with stakeholders and developers to track progress and ensure timely delivery.
- Conducted API and integration testing to verify backend functionality, data integrity, and reliable communication between services.
- Perform API performance and load testing using k6.
- Develop automated end-to-end tests using Playwright.
- Leverage MCP integrations and AI-assisted tools to improve testing efficiency.
- Conduct functional, regression, and compatibility testing for mobile applications.
- Track defects, verify fixes, and support release quality and production readiness.

Senior Software Quality Assurance Engineer **December 2022 – Present**
Nextpak Agile Solutions, Rawalpindi, Pakistan

- Led QA activities across multiple client projects by implementing structured test strategies and automation frameworks to improve product quality and reduce production defects.
- Designed and executed test plans, test cases, and automation scripts for web applications, achieving 95%+ test coverage.
- Implemented Cypress-based end-to-end automation, reducing manual testing effort by 60% and improving regression testing efficiency.
- Conducted API and integration testing to verify backend functionality, data integrity, and reliable communication between services.
- Conducted functional, hallucination, and context-retention testing for AI chatbots across conversational scenarios and edge cases.
- Collaborated with cross-functional Agile teams throughout sprint planning, daily standups, and retrospectives to integrate quality throughout the development lifecycle.
- Mentored junior QA engineers on testing practices, automation, and Agile methodologies.

Software Quality Assurance Engineer **December 2020 – June 2022**
Xtreme Software Services Pvt Ltd, Peshawar, Pakistan

- Executed comprehensive manual testing for enterprise applications, identifying critical defects before production release

- Performed thorough API testing to validate backend functionality, data integrity, and system integrations
- Participated actively in Agile ceremonies, contributing to sprint planning, daily standups, and retrospectives
- Created detailed test documentation including test plans, test cases, and defect reports for cross-team collaboration
- Collaborated with developers to reproduce, debug, and resolve complex software issues
- Performed regression, smoke, and sanity testing for each release cycle, ensuring stable deployments

EDUCATION

Bachelor of Science in Computer Science **2018 – 2022**
City University of Science and Information Technology, Peshawar, Pakistan

CERTIFICATIONS

Certified Git | Agile Project Management (HP Life)
